

# Böttcherin 60 N

## Cleaning Agent for Rollers and Blankets

---

Cleaning agent for cleaning printing blankets and rollers in sheet-fed and newspaper presses. It is suitable for both manual cleaning and use in automatic installations in sheet-fed offset.

*Application*

-  based on aliphatic hydrocarbons
-  flash point > 62 °C
-  water miscible, free of aromatics, corrosion inhibited
-  good cleaning power
-  slow evaporation
-  good wetting of the roller and blanket surfaces through the inclusion of highly effective emulsifiers
-  to be removed with water, leaving no residues

*Features*

We recommend setting the washing system to optimise the cleaning cycle and Böttcherin 60 N performance. In case of manual cleaning, use Böttcherin 60 N undiluted or mixed with water. Apply the wash to the blanket or roller, then finally rinse with water until all ink and cleaning agent residues have been removed.

Follow the automatic washing system manufacturers' operating instructions. If manual cleaning with a hand rag, wear protective gloves during application, follow all press safety instructions.

*Note*

Böttcherin 60 N is approved by the press manufacturer manroland for use in his machines and is also certified by the FOGRA.

-  20 litre can
-  200 litre barrel
-  1000 litre container

*Package*

Böttcherin 60 N is classified and marked in accordance with EC - Directive 1999/45/EC - in its latest version. Böttcherin 60 N is not a dangerous good in the sense of national and international transport regulations.

*Marking*
