

# Böttcherin 80

## Cleaning Agent for Rollers and Blankets

Suitable for use in automatic washing systems in newspaper presses and for manual cleaning.

*Application*

-  based on aliphatic hydrocarbons
-  flash point > 80 °C
-  water miscible, free of aromatics, corrosion inhibited
-  increased cleaning effect
-  slow evaporation
-  due to highly effective emulsifying system, increased wetting of the surfaces
-  to be removed with water, leaving no residue

*Features*

We recommend setting the washing system to optimise the cleaning cycle and Böttcherin 80 performance. In case of manual cleaning, use Böttcherin 80 undiluted or mixed with water. Apply the wash to the blanket or roller, then finally rinse with water until all ink and cleaning agent residues have been removed.

Follow the automatic washing system manufacturers' operating instructions. If manual cleaning with a hand rag, wear protective gloves during application, follow all press safety instructions.

*Note*

Böttcherin 80 is approved by the manufacturers Heidelberg, manroland, Koenig & Bauer, Baldwin and Oxy-Dry for use in their machines.

-  20 litre can
-  200 litre barrel
-  1000 litre container

*Package*

Böttcherin 80 is classified and marked in accordance with EC - Directive 1999/45/EC - in its latest version. Böttcherin 80 is not a dangerous good in the sense of national and international transport regulations.

*Marking*
