

# BöttcherPro EC-new

## Dampening Roller Cleaner Concentrate

Feboclean EC-new is a concentrate for cleaning dampening roller cloth sleeves and covers. It is suitable for manual off press application and for on press roller cleaning processes.

*Application*

- based on highly effective cleaning substances
- water soluble, free of aromatics and CFC's
- highly effective cleaning concentrate
- particularly efficient and economical
- removes dried on ink residues and other dirt from surfaces and fibres of dampening roller sleeves and covers

*Features*

Feboclean EC-new is a cleaning concentrate and must be mixed one part concentrate with five parts water before application. Apply the mixture to the moist (not wet) dampening roller surface and scrub it with a brush without water. Rinse off with water after a short reaction time.

*Note*

Please follow your local environmental guidelines when disposing of the waste. Follow all press safety guidelines. Wear protective gloves and approved personal eye protection during application.

 1 litre bottle

*Package*

Feboclean EC-new is classified according to EC-Directive 1999/45/EC - in its latest version and does not need to be marked. Feboclean EC-new is not a dangerous good in the sense of national and international transport regulations

*Marking*
