

Böttcherin Ecosol

Universal Cleaning Agent

Böttcherin Ecosol is a water based alkaline wash for cleaning of ink and grease dirt from machine parts and floor. It can be also used for cleaning of the fountain system.

Application

- Alternative to common fast evaporating and highly flammable cleaning agents
- Meets the requirements of the Blue Angel Eco Label
- Ink will be dissolved very easy and absorbed completely from the cleaning rag
- Cleaning without big effort, very good gliding behaviour
- Suitable for all roller compounds
- Suitable for coated ink rollers (avoid longer application time and clean with water afterwards)
- Suitable for conventional inks, UV-, HUV- and LED-UV inks
- Suitable for metallic and special inks
- Attacks non-baked positive plates
- For cleaning the fount system dilute 1:10 with water and let the circulation pump run for 30 minutes

Features

Apply Böttcherin Ecosol undiluted with a pre-soaked cleaning rag and clean with water afterwards. Wear protective gloves during the application.

Note

 20 litre one way can
