

# Böttcherin UV-30

## Wash for Roller and Blankets in UV-Printing

---

For manual cleaning of rollers, blankets and press metal components with dried-on UV inks.

*Application*

- flash point > 30 °C
- completely water miscible, free of aromatics
- very good solubility properties for dried-on UV inks, with medium evaporation
- good chemical compatibility with UV resistant printing rollers and blankets (EPDM and dual purpose nitrile grades)
- if used short-time, suitable for conventional roller grades as well for cleaning of dampening rollers, where ink feedback is a problem
- attacks non baked positive plates
- not suitable for use with conventional inks

*Features*

---

Böttcherin UV-30 is only meant for manual cleaning. Use Böttcherin UV-30 undiluted. Finally clean with a water damped rag.

*Note*

Wear protective gloves and approved personal eye protection during application.

- 20 litre can
- 200 litre drum

*Package*

Böttcherin UV-30 is classified and marked in accordance with EC - Directive 1999/45/EC - in its latest version.

*Marking*
