

Böttcherin UV-60 S

Wash for Rollers and Blankets in UV

For manual cleaning and automatic cleaning devices in UV-printing.

- flash point > 62 °C
- 🔇 completely water miscible, free of aromatics, corrosion inhibited
- high cleaning power
- slow evaporation
- 🔇 economical in use
- especially for automatic cleaning devices in KBA machines
- good chemical compatibility with UV resistant printing rollers and blankets
- not suitable for conventional rollers
- may attack non baked positive plates

We recommend setting the washing system to optimise the cleaning cycle and Böttcherin UV-60 S performance. In case of manual cleaning, use Böttcherin UV-60 S undiluted. Apply the wash to the blanket or roller, then finally rinse with water until all ink and cleaning agent residues have been removed.

Follow the automatic washing system manufacturers' operating instructions. If manual cleaning with a hand rag, wear protective gloves and approved personal eye protection during application, follow the safety instruction of the press manufactures

Böttcherin UV-60 S is approved by the manufacturers Heidelberg, manroland, Koenig-Bauer, Baldwin and Technotrans for use in their machines.
