

# Böttcherin EG-60 S

## De-Glazer

Böttcherin EG-60 S is a special wash for deglazing blankets and rollers. Applied manually, Böttcherin EG-60 S removes even solid, deep ink residues.

*Application*

- Enhanced ink dissolving performance
- Cleans pores of blanket and roller surface
- Removes glazing of printing blankets and rollers
- Extends the cleaning periods and shortens lead times
- Reduced consumption due to slow evaporation
- Flash point > 61°C
- Short-time water miscible

*Features*

Böttcherin EG-60 S should be applied to a cleaning rag and then wiped intensively over the blanket surface. The blanket should then be rinsed with water.

For cleaning the roller Böttcherin EG-60 S should be applied to the roller with the machine running slowly. The roller should then be rinsed with water. In case of residues repeat the cleaning process.

*Note*

Wear protective gloves during application.

 10 litre can

*Package*

Böttcherin EG-60 S is classified and marked in accordance with EC-directive 1999/45/EC - in its latest version. Böttcherin EG-60 S is not a dangerous good in the sense of national and international transport regulations.
