## BöttcherTex Impress Plus

### Cleaning Web for Cleaning the Impression Cylinder in Automatic Blanket Washing Systems

#### APPLICATION

For cleaning the rough impression cylinder ("jackets") after turning.

#### ADDED VALUE

##### Productivity:

- No manual post-cleaning required due to optimal fluid distribution in the fleece and reduced fiber abrasion.
- Absorbency is increased by approximately 20% thanks to the absorbent fibers contained.
- Fleece thickness allows for 15% longer roll lengths.

##### Quality:

- Minimal dripping during roll changes due to better retention of cleaning agents.
- Ideal for use in machines with increased cylinder rotation speed during washing (3000 rph).

##### Sustainability:

- Usable with VOC-free cleaning agents.

#### FEATURES

- Special fiber composition and arrangement optimize absorbency with very low fiber abrasion.
- Diagonal fiber arrangement ensures optimal fluid distribution even in the axial direction.
- Reduced fiber abrasion in use thanks to the optimal surface structure.

## TECHNISCHE DATEN

<b>Color:</b>	<b>White</b>
<b>Weight:</b>	<b>60 g/m<sup>2</sup></b>
<b>Tensile Strength (longitudinal):</b>	<b>100 N/5 cm</b>
<b>Tensile Strength (transverse):</b>	<b>160 N/5 cm</b>
<b>Thickness:</b>	<b>0.5 mm</b>

## Notes

Available as:

- Mini rolls for direct use in automatic wash systems in Heidelberg printing machines HD SM 74 and HD 74 CD / XL 75 (fleece width 765mm), HD XL 105 / 106 (fleece width 1075mm).
- Maxi rolls (length 500 m) for self-conversion to mini rolls with our winding stand.
