

Boost your Production

Inking Rollers

For UV-Printing

Compound	Shore A
726	40
715	25

APPLICATION

Printing Press:	Sheetfed
Substrate:	Paper, card board, non-absorbing substrates
Inks:	UV-inks

ADDED VALUE

Productivity:

- High chemical resistance, less effort required for roller setting

Quality:

- Stable ink transfer even when using metallic inks and opaque white enables the production of high-quality print products

Sustainability:

- Less roller consumption due to product longevity

FEATURES

- OEM roller compound used by the world's leading machine manufacturers
- Excellent life time

TECHNICAL DATA

Compound colour	Pink (726 40), Grey (715 25)
Compound hardness	40 Shore A / 25 Shore A
