

Boost your Production

Inking Rollers

For conventional printing

APPLICATION

Printing Press: Sheetfed
Substrate: Paper, card board, non-absorbing substrates
Inks: Conventional inks

ADDED VALUE

Productivity:

- High chemical resistance, less effort required for roller setting

Quality:

- Stable ink transfer, even when using spot colours, enables the production of high-quality print products
- Excellent print run stability

Sustainability:

- Less roller consumption due to product longevity

FEATURES

- OEM roller compound used by the world's leading machine manufacturers
- Excellent life time
- Most sold rubber compound world wide

TECHNICAL DATA

Compound colour Black
Compound hardness 25-40 Shore A

Compound	Shore A
179	25
279	30
379	35
479	40
