Böttcherin Ecosol

Aqueous Alkaline Universal Cleaner for Printing Ink, Greasy and Oily Contaminations on Machine Parts, Floors, and Dampening Water Circuits

APPLICATION

Inks Removes conventional inks

ADDED VALUE

Productivity:

- Cleans without much effort, good lubricity.

Quality:

- Ink is very well dissolved and completely absorbed by the cloth.

Sustainability:

- Meets the requirements of the "Blue Angel" eco-label.
- Alternative to conventional highly volatile and flammable cleaners.

FEATURES

- Suitable for all roller materials.
- Suitable for metallic and specialty inks.
- Suitable for conventional inks, UV, HUV, and LED-UV inks.
- Also suitable for coated rollers (avoid long exposure times, rinse with water).

TECHNICAL DATA

Form:	Liquid
Color:	Yellow
Flash Point:	100°C
Density:	1.005-1.009 g/cm³ at 20°C
Water Solubility:	Miscible

Folding Carton

Boost your Production

PACKAGING

20 L disposable canister, 200 L disposable drum, 1,000 L IBC.

NOTES

Apply Böttcherin Ecosol undiluted with a soaked cloth and rinse with water. Gloves should be worn to protect the skin during application. For cleaning dampening water circuits, dilute 1:10 with water and circulate for 30 minutes.
