Label

Böttcherin Solvento

Cleaner for Flexographic Printing Machines

APPLICATION

- Areas:** Printing form (plate or sleeve), anilox rollers, and printing units of flexographic printing machines for daily use
- Inks:** Dissolves solvent-based and UV flexographic inks
- Process:** Ready-to-use cleaner

CUSTOMER VALUE

Productivity:

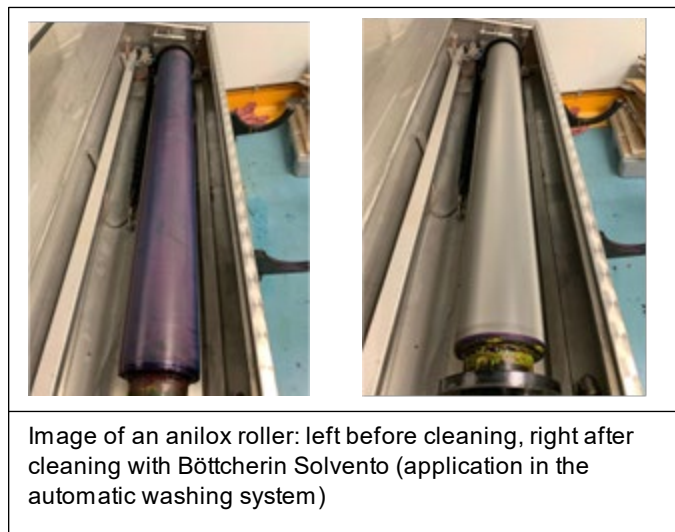

- Ready-to-use cleaning agent
- Very high cleaning efficiency
- Usable at room temperature

Quality:

- Very low foaming
- Flash point > 60°C
- Safe to use, does not attack aluminum parts

Sustainability:

- Environmentally friendly, fully biodegradable, and phosphate-free
- Certified by ISEGA for food packaging printing

Boost your Production

FEATURES

- Detergent for daily use
- High cleaning efficiency based on a combination of special surfactants and solvents

TECHNICAL DATA

Form: Liquid

Color: Yellow

Density: 0.948 g/cm³ at 20°C

Flash Point: 68°C

Water Solubility: Emulsifiable

Label

Packaging

25 L canister, 200 L drum, 1,000 L IBC

NOTES

Suitable protective gloves should be worn during application. ei der Anwendung sind geeignete Schutzhandschuhe zu tragen.
