Flash Point:	103°C
Density:	0.717 g/cm³ at 20°C

MACHINE APPROVALS

Compatible with all washing system types.

PACKAGING

20 L canister, 200 L drum, 1,000 L IBC.

NOTES

Böttcherin FR-1000 is used for occasional intermediate cleaning of rollers depending on the level of contamination. Apply Böttcherin FR-1000 to dampening rollers with a cleaning cloth while the machine is not running and clean. Gloves should be worn to protect the skin during application.
